

Interesting Facts

These community-focused events are perfect for showing your support for breast cancer research while spending quality time with your mum. Join us, have fun, and help make a difference in the lives of many.

BREAST CANCER

- Breast cancer is the most commonly diagnosed cancer amongst women in Australia.
- Approximately **57 Australians** are diagnosed each and every day. That equates to over 20,000 Australians diagnosed with breast cancer each year.
- The risk of being diagnosed with breast cancer over a lifetime is 1 in 7 women
- 9 out of 10 women who are diagnosed with breast cancer have no family history

BREAST CANCER RESEARCH CENTRE WA

- Non-for-profit organisation dedicated to research, support services and education programs benefiting patients and their families
- We give men and women with Breast Cancer in WA world-class, evidence-based treatment ensuring the best possible outcomes
- Funds are directed to our team of breast care nurses and clinical psychologists are here to offer subsidised, personalized care, while our support group for metastatic patients, PYNKS, help foster connections.
- BCRC-WA self funded and does not receive any government funding
